SIFISO REGINALD NDLOVU

Monitoring & Evaluation Officer | Data Quality Specialist | Logistics Coordinator

076 757 1869 | sifiso_ndlovu@yahoo.com | Pretoria, Gauteng, South Africa

sifiso-ndlovu.vercel.app | github.com/SifisoNdlovu

PROFESSIONAL SUMMARY

Ten years in M&E across PEPFAR, USAID, and Global Fund programmes covering TB, HIV, GBV, AYP, and VMMC. Day-to-day that means data quality checks, indicator tracking, source document verification, DHIS2 and EDR-Web submissions, and Power BI dashboards that teams and donors actually use during reviews, not just at design phase.

The logistics side is real, not a footnote. Managed a 30-vehicle fleet spread across three provinces, directed procurement of IT and medical supplies running into millions of rands, and handled travel coordination for more than 40 staff. Supervised teams of up to 23 people across both functions. Holds a Code 10 with PDP. Comfortable across government, NGO, and sub-awardee environments because that is where most of the work has been done. New systems are not a problem; the learning curve is usually short.

CORE COMPETENCIES

Monitoring and Evaluation: Indicator Tracking, Data Quality Assurance (DQA), Results Framework, Performance Reporting, KPI Development, SOP Compliance, DQA Site Visits

Data Management Systems: DHIS2, EDR-Web, HCF, KVAP, MyHope, Orbit, CBIMS, LMIS, EpiData, MyHope, Database Management

Data Analysis and Visualisation: Power BI Dashboard Development, Advanced Excel (Pivot Tables, Conditional Formatting, Dashboards), Data Validation, Trend Analysis

Logistics and Operations: Fleet Management (30-vehicle, 3 provinces), Route Optimisation, Procurement, Supply Chain, FIFO Stock Control, Vendor Negotiation, Travel Coordination

Programme Compliance: PEPFAR, USAID, Global Fund, Department of Health reporting standards and donor requirements

Digital and Technical Tools: Microsoft 365, Google Workspace, Adobe (Photoshop, Illustrator), CorelDraw, VS Code, Cursor, Linux (Garuda, Mint, Kubuntu, Tuxedo, Ubuntu, Zorin)

AI Tools in Use: Claude, ChatGPT, DeepSeek, Grok, MS Copilot, NotebookLM, Perplexity

Languages: Proficient in 9 South African languages, written and spoken

Driving: Code 10 Driver's Licence with Professional Driving Permit (PDP)

PROFESSIONAL EXPERIENCE

Data Capturer | Childline Tshwane

Global Fund, AYP Programme | *July 2025 to October 2025*

- Verified forms for accuracy and completeness in collaboration with interventionists, applying UIC naming conventions throughout the filing and scanning process.
- Digitised physical programme forms using scanning equipment, uploaded to designated G-Drive folders, and confirmed successful transfers against the source document log.
- Cross-referenced UIC records against the MyHope system to confirm data integrity and flag discrepancies for resolution within a three-day turnaround.
- Maintained hard copy filing in lockable cabinets with clear labelling, and conducted regular data audits to verify SOP compliance across all processing activities.
- Identified and reported data discrepancies, tracked resolution progress, and communicated outstanding items to interventionists and supervisors.

Data Officer | NACOSA

USAID, GBV Response Programme | *June 2024 to March 2025*

- Managed end-to-end data quality processes for the GBV Response programme: imported and processed raw data via Orbit, cross-referenced reports against source documents, and resolved integrity issues (missing IDs, ineligible entries, duplicate records) to achieve 100% accuracy for donor reporting.
- Monitored CBIMS and Orbit systems for missing data, inconsistencies, and discrepancies, and implemented corrective measures in coordination with programme and technical assistance teams.
- Monitored and maintained dynamic Power BI dashboards and timeously distributed to provincial teams, reducing manual reporting time by 40% and improving data visibility across the programme.

- Developed a Digital Index in Excel, linking programme folders, documents, reports, and training materials, cutting document retrieval time for the full team by 60%.
- Revised the Client Intake Form, Registers, and Meeting Minutes template to reduce capturing errors and standardise usage, with version control applied throughout distribution to all sites.
- Introduced digital data collection tools (MS Forms, MS Loops, Google Forms), cutting paper usage by 95% and accelerating remote capturing and reporting cycles.
- Configured One Drive, Power BI dashboards, and MS Authenticator for new staff during on-boarding, improving system integration and reducing setup time.
- Delivered technical support and capacity building to sub-awardee M&E teams during data quality assessments, covering Orbit, Excel, and Power BI.
- Coordinated LIVES training logistics: managed online registrations, attendance records, training group links (LMIS, MS Forms, WhatsApp QR codes), and session documentation, reducing paper use at training events by 35%.

Data Quality Officer | MIET Africa
Global Fund, AYP Programme | *March 2024 to May 2024*

- Supervised and coordinated a team of 15 (12 Data Capturers and 3 Linkage Officers), managing daily scheduling, output tracking, and performance monitoring to meet operational targets.
- Conducted comprehensive data analysis and validation across KVAP, HCF, and MyHope platforms, reducing capture errors by over 25% through systematic cross-referencing with source documents.
- Performed cross-platform data validation by comparing MyHope and HCF entries against original source documents to confirm accuracy and flag inconsistencies.
- Served as primary custodian for all physical and electronic data assets, maintaining strict information security and compliance protocols.
- Designed training materials and delivered sessions on MyHope platform updates and data entry procedures to maintain team competency and standardise processes.
- Generated daily, weekly, monthly, and quarterly analytical reports for stakeholder review and programme decision-making.
- Coordinated with E-Software for MyHope and KVAP system troubleshooting and issue resolution.
- Conducted field visits to verify operational alignment between programme activities and what was being recorded and reported in the system.

Data Officer | Zakheni Training and Development Centre
Global Fund, AYP Programme | *July 2019 to March 2022*

- Recruited, trained, and led a 23-member data capture team to clear a critical three-year data backlog mandated by NACOSA, digitising and securing over 360,000 AYP programme documents using MS Excel and MyHope, including cloud backup and external storage protocols maintained through COVID-19 operational disruptions.
- Conducted comprehensive document verification and data validation checks to minimise capture errors, and generated detailed analytical reports using KVAP systems.
- Directed the end-to-end procurement for a major organisational expansion across three offices: sourced and commissioned 30 laptops, 6 desktops, 5 industrial laser printers, enhanced Wi-Fi infrastructure, a 12-camera CCTV system with alarm integration, 8 HVAC units, and full office equipment for the head office relocation from Soshanguve to Mabopane, plus Polokwane (Limpopo) and Rustenburg (North West) branches. All delivered on schedule and within budget.
- Maintained assets registers and managed inventory control for all programme equipment across three provincial offices.
- Coordinated staff email provisioning through network service providers and managed equipment maintenance relationships to keep operations functional.
- Trained and supervised data capturers on entry protocols, SOP compliance, and source document management.

Acting Logistics Officer | JPS Africa
USAID, VMMC Programme | *February 2018 to September 2018*

- Managed a 30-vehicle fleet across 40+ sites in three provinces (Gauteng, KwaZulu-Natal, North West): coordinated roadworthy and licence renewals, implemented a maintenance tracking system, and optimised routes, reducing fuel consumption, tyre wear, and repair costs by 20%.
- Negotiated service agreements with towing and repair companies including Minit Print and Bidvest for roadside emergencies, maintaining programme continuity and cost control.
- Managed procurement and inventory of medical and non-medical supplies in line with USAID compliance and DoH protocols, applying demand forecasting and FIFO methods to eliminate stock-outs across all sites.
- Coordinated travel logistics for 40+ staff: arranged flights, shuttles, programme vehicles, rental vehicles, and accommodation through agencies including Wedge Mice and RS Conferencing, maintaining cost-effectiveness.

- Built Excel dashboards for supply chain monitoring and resource allocation decisions, and supported the data capturing team to improve accuracy and reporting efficiency.
- Maintained zero accidents and fatalities across fleet and field operations through strict adherence to USAID and PEPFAR safety standards.

ADDITIONAL RELEVANT EXPERIENCE

- Mobile Van Operator, MIET Africa (Global Fund, AYP) | November 2022 to March 2024: Operated and maintained mobile HIV and SRH clinic vehicle across Tshwane under-served communities. Managed medical supply records, vehicle documents, and community mobilisation. Co-facilitated 3 Men's Dialogue events and 2 soccer matches, increasing male participation by 35%.
- Data Administrator, CHAPS (USAID, VMMC Programme) | March 2015 to June 2017
- Data Capturer and Data Clerk, JPS Africa (MDR-TB Global Fund and VMMC-USAID) | July 2017 to September 2018
- Driver and Logistics Officer, FMK Logistics | February 2007 to January 2009
- Graphic Designer, Bumba Signs | February 2011 to January 2013
- Receptionist, Kagisano Solutions | May 2002 to January 2003
- Data Capturer, Workforce (ABSA and Sekulula Accounts) | February 2003 to January 2005
- Promoter, Workforce (Standard Bank and MTN Mobile Money) | February 2005 to December 2006
- Data Capturer, TMT Services | February 2009 to December 2009
- Collection Agent, TMT Services | February 2013 to February 2014
- Promotions and Sales Agent, Vetex Communications | March 2014 to February 2015

EDUCATION

NQF 4, National Senior Certificate: Tiyelelani Secondary School | 2001

Certificate: PC Engineering: SADESA College | 2002

Certificate: Fundamentals of Computing: University of Limpopo, MEDUNSA Campus | 2009

PROFESSIONAL CERTIFICATIONS

- Full Stack Development Certificate, FNB App Academy | 2025
- Monitoring and Evaluation Certificate, AQuaH Training School | 2024
- Data Visualisation with Power BI Certificate, Great Learning | 2024
- Procurement Management Certificate, Great Learning | 2023
- Logistics Management Certificate, Great Learning | 2023
- Inventory Management Certificate, Great Learning | 2023
- Assets Management Certificate, Great Learning | 2023
- Data Analysis Using Excel Certificate, Great Learning | 2023
