Monitoring & Evaluation Officer | Technical Assistance Officer

PROFFESSIONAL SUMMARY

Results-oriented M&E specialist with more than 23 years of expertise in quality control, technical support, and data management for health programs funded by donors (USAID, Global Fund). Demonstrated proficiency in enhancing data systems, facilitating capacity building, and promoting quality enhancement in primary healthcare environments.

Key Expertise:

- **Data Management**: Data collection, analysis, visualization, database maintenance (Excel, Power BI, online systems).
- **Team Management**: Training, capacity building, supervision.
- **Health Data Platforms**: DHIS2, EpiData, HCF, KVAP, LMIS, MyHope, Orbit.
- Program Performance, Metrics and KPI Monitoring.
- Database Creation, Management and Reporting.
- Data Collection, Analysis, Presentation and Reporting.
- Stakeholder Coordination and Management.
- IT and Systems Proficiency and Support for M&E systems.
- Report Writing and Feedback.

PROFESSIONAL EXPERIENCE

Data Officer **NACOSA (USAID - GBV Response)** **01/06/2024 to 31/03/2025**

Tasked with actively participating in initiatives to enhance data quality and examining and validating reported information. In order to carry out verification tasks, this role required frequent communication and travel to site-based offices.

- Examining and confirming information that has been reported in order to enhance data quality.
- Managing data collection, cleaning, and resolving problems with data quality.
- Both virtual and on-site data verification.
- Creating reports and offering comments on the accuracy of the data.
- Power BI reporting dashboards.
- Developing and keeping an eye on online data collection tools (such as Google Forms and Microsoft Forms).
- Working together with programmatic and TA teams to put data quality systems into place.
- Assisting M&E teams under sub-awards.
- Introducing new employees to M&E systems.
- Analysis of the data and suggestions for raising the standard.
- Participating in and recording M&E trainings and workshops

Data Quality Officer **MIET Africa (Global Fund - AYP)** **19/03/2024 to 30/05/2024**

In November 2022, I started working for Miet Africa as a mobile van operator. In March 2024, I was promoted to the position of data quality officer. charged with overseeing the Data Captures team.

- Overseeing and managing data collectors.
- Data analysis and validation using Excel, KVAP, HCF, and MyHope.
- Data security and safety (if applicable to data management).
- Monitoring cases of linkage to care.
- Using the MyHope platform to train the team.
- Resolving issues with data capture.
- Reporting on data that has been collected.
- Site visits to confirm data.

Data Officer **Zakheni Training and Development Centre (Global Fund - AYP)** **01/07/2019 to 31/03/2022**

Initially hired as a data capturer, I quickly advanced to the position of data officer, handling procurement and M&E tasks while collaborating with the organization's technical team, management, and data capturers.

- Educating and supervising data collectors for extensive data capture.
- Ensuring cloud upload, backup, scanning, and data capture.
- Compiling reports and verifying data.
- Building M&E/data teams' capacity and providing leadership.
- Purchasing, inventory, office relocation, equipment/resource management, and security system management.
